Winter Holidays!

Everybody knows that it is not a secret that winter is the most favourite season of pupils as they have their winter holidays and can rest from school.

Winter is the time of wonders!

Firstly, we decorate our houses and New Year's trees and we feel exciting atmosphere around us as all the stores and cafes outside start hanging festive decorations on doors and windows. It elevates our mood and makes us really happy.

Secondly, we celebrate the New year's Eve and Christmas. We are waiting for our Father Frost with lots of presents and miracles.

Thirdly, we like the moment on the 31st of December when the clocks strike 12 am and all the family gathers together around the dining table. Then we share delicious meal and drinks. There is also some time for winter activities as we like them very much!

My Long-waiting Holidays!

My name is Daniil. I study in the 4th form. I want to say that winter is one of my favourite seasons. When I can do what I want. I usually spend winter holidays with my family: my mother, my father and my elder brother.

On my winter holidays I went to the circus with my family. I saw a lot of different animals, clowns, jugglers, acrobats. I listened to nice music and took many pictures. I had really fun as all my family gathered together!

Sklyar D., 4th form

We know that pupils of our primary school are very active especially during winter holidays. They are very curious as they want to know everything.

The pupils of the 1b form went to the Darwin Museum with their teacher.

They saw big collections of exhibits and learnt about the history of the theory of evolution. All pupils were impressed but very tired as the territory of the museum is large enough. They liked the excursion very much. It was a good beginning of winter holidays!

My name is Kate. I am in the 4th form. I like winter and winter holidays best of all. On my holidays I did a lot of things. I went to the New Year performance and got a nice present.

I went to visit my granny. She is very hospitable and she is a good cook. When I come to her she always cooks a lot of delicious dishes. My granny, my brother and I went to the skating rink. We had a great time there. Also we went skiing, to the cinema and shopping. In the evening I helped my granny. In general I want to say that I spent my holidays unforgettable. I liked them!!!

Nikolaeva K., 4th

My name is Ekaterina and I can call my holidays - "Cinema Holidays" as I read a lot , learned History, watched different films with my mother. I want to say that we have seen a lot of good films.

My holidays started with a Christmas episode of Sherlock which was called "The abominable bride". It was fantastic as usual. Then we watch films with James Bond, some episodes from "Star Wars". Of course, we went to the cinema and watch "Mafia– the game of survival" . The trailer of the film was excellent but the plot of the film had nothing to do. It's a pity as the worst film I have ever seen in my life. There was neither acting nor plot, nothing!

In general I liked my winter holidays! **Belikova E., 10th form**

Don't be indifferent!

We decided to help homeless animals as they live in the shelter. We know that they need our care, love and attention. The pupils of our school brought what they wanted. Some of them brought old clothes, the others forage for animals, bowls and even toys. Everyone wanted to make a contribution to the common cause. The purpose of this action was to show compassion to the problem and do a good deed for the shelter. If animals can talk they would say "Thank you"!

Lugansk - our new friends!

We had a great event at our school as we were twinned with school № 60 from Lugansk. We were looking forward to this meeting as we didn't know anything about them but we were eager to be acquainted with them. They turned out to be very sociable, friendly and attentive. We started our meeting in the Assembly hall where we introduced our school. Our guests listened to us very attentively.

Our new friends came to us with a real surprise. Two girls performed an acrobatic dance and we watched with pleasure.

Our school community and the representatives of gymnasium №60 decided to develop our relations in the following directions:

- exchanging school newspapers, radio releases and etc.
- building relationships between the school

museums;

- participation in the webinars;
- the establishment of doing our joint projects.

Unfortunately, the time was not enough to communicate with our new comrades. But they showed us their video about their school, peaceful Lugansk and, of course, about the war which claimed the lives of

hundreds of people. After that we signed the contract and this moment was very official.

We continued our meeting in our school patriotic museum. Our friends were impressed by our museum. They presented us with the book of poems of their pupils and we gave them the symbol of our school - an owl made by Maria Khokhlova. They invited us to their school. We hope for our fruitful cooperation!

Belikova E., 10th form
